Keywords: Abstract instructions, IWT'11, important information.

This document presents the instructions for preparing IWT'11 abstracts. Please, use Times New Roman 12 pt font in entire document. All margins must be 2 cm. The title of the paper and the keywords must be **Bolded**. The line spacing must be equal 1.5.

In the authors's information, it is important to include the address, mainly if you are not Brazilian. Your phone number will also be very useful, in case we need to contact you.

The abstract length must have at least 1,000 words and should not exceed three pages. The text must present the aim of the paper and its main contributions. Presentation of partial or initial results is encouraged. Fell free to include figures, tables and equations if you think that it will help the reviewers to understand the objectives and results of your work. It is also important to list the main references of your paper. Please, use the IEEE format [1].

Finally, please remember that the deadline for abstract submission is October 15th 2010. We are using JEMS platform to manage this workshop. Please, visit our website to obtain further information about the submission process. If you have any doubt about the templates, registration or submission process, please, send us an e-mail (iwt@inatel.br).
